## Learning objectives

By the end of this module, the participants will be able to:

- understand the concepts that underlie risk assessment
- apply risk assessment frameworks on their personal and / or organisational security
- come up with their own way of doing risk assessment that is relevant to their needs

## Learning activities

### Starter activities

image.1605640724450.png

- Introduction to risk assessment (presentation + discussion)
- Assessing communication practices
- Daily pie chart and risk
- The street at night

### Deepening activities

image.1605640735000.png

- Re-thinking risk and the five layers of risk (presentation + discussion + group work)
- Data life-cycle as way to understand risk

# Tactical activities

image-1605640743110.png

- [Organising protests and risk assessment](#)

# Foundational materials

- [Risk assessment basics](#)
- [Risk assessment in movement building](#)
